In my experience after 20 years of dancing and teaching Argentine tango and other dances, I found that most of the time private lessons were more effective in faster and better learning of the movement. In the mean time, students who also took my group classes, experienced an undivided attention to everyone in the group in learning the details, as I am extremely detail oriented. Nevertheless, many students came to a lesson with lots of unprocessed information about figures, therefore, I developed a trouble shooting system whether in private or group lessons for students (**Lead and follow with a large dance vocabulary and poor technique**) to re-learn what they knew with a better technique within the music which would help them to become fine dancers and share the experience with a partner on a social dance floor with pleasure and confidence! My goal is to continue this method to help the fellow dancers in achieving a level of confidence and clearness in their dance. Secondly, to collaborate with like-minded tango teachers around the US for building a community of great dancers who would like to dance the real tango, the one and the only!

**All privates are one hour class \$75 for singles, \$90 for couples to share a lesson (\$45 each),**

**\$30 for the workshop 7:30-9:00 pm followed by a guided practica 9:00-10:00 pm on Friday Sept. 25<sup>th</sup>**

**Location for all the classes and the workshop:**

**The Tango Gallery, 18000 Preston Rd., Dallas, TX
